

October 6, 2015

Randy Marshall,

My name is Jordan Day. I am a podiatrist in Hobbs NM. I was recently made aware of an influx of lawsuits which are being processed in NM because the potential outcome is more favorable than in our neighboring state of Texas. This has already had negative impact and will potentially cause specialty doctors in bigger cities in Texas to stop taking my referrals. Please consider an adjustment to the laws that would promote equality and a more healthy relationship between doctors in New Mexico and Texas.

Sincerely,

Jordan Day DPM
